- Suitable for any smart device or enterprise platform.
- Automatic transcription with high accuracy.
- Proprietary A.I based Self Adaptive Noise Elimination.
- Comfortable on ear cushion.
- Less than 2 hours charge time.
- Bluetooth playback upto 25 hours, or use wired mode.
- Multi points connection & rotating boom mic.
- Clear crisp conversations resulting in shorter talk duration.
- No need for passive noise cancelling investment such as soundproofing on walls and ceiling.
